OUR COMPANY

Starks Technology Services (STS) delivers practical cybersecurity, AI and IT workforce training for organizations, schools and emerging professionals.

Our programs combine instructor-led learning, virtual labs and real-world scenarios to build job-ready skills.

TRAINING PROGRAMS

- **Cybersecurity Awareness**
  Build secure habits, recognize threats and protect sensitive information.
- **Artificial Intelligence Awareness**
  Use AI responsibly, understand risks and apply effective prompting.
- **Phishing Campaigns**
  Practice spotting suspicious messages through simulated attacks and coaching.
- **CompTIA Training**
  Certification-aligned learning with guided labs and hands-on exercises.
- **Apprenticeship Program**
  Structured technical training paired with supervised workplace experience.
- **Pre-Apprenticeship Program**
  Foundational skills, career exploration and job-readiness preparation.

CORE COMPETENCIES

- **Awareness Education**
  Cybersecurity, AI safety and phishing defense.
- **Certification Preparation**
  CompTIA-aligned instruction and skill validation.
- **Practical Lab Experience**
  Virtual exercises and realistic security scenarios.
- **Workforce Pathways**
  Pre-apprenticeship, apprenticeship and career preparation.

DIFFERENTIATORS

- **Texas DIR-Certified**
  Recognized cybersecurity and AI awareness training provider.
- **Industry-Relevant Learning**
  Hands-on labs, simulations and practical assessments.
- **Flexible Program Delivery**
  Instructor-led, virtual and customized group training.
